

Republic of The Sudan
Ministry of Minerals

Sudanese Mineral Resources Company

SMRC

The Sudanese Mineral Resources Company (SMRC) is the governmental supervisory body in the mining resources sector of the Sudan, established in 2014. It has the authority to organize and control the companies which work and invest in the mining sector. It has developed strategies and high quality standards to manage the mining sector within the framework of the Mineral Resources & Mining Act (2015), and the regulations issued thereunder.

Our Vision:

Optimal exploitation of mineral resources.

Our Mission:

To implement the mining policies through the supervision & monitoring of the mining sector and to apply the international norms and standards in the mining industry.

Objective :

- To increase the per capita income by developing the mining sector.
- To denationalize the mining industry and bring the best modern systems.
- To develop the programs of social responsibility.
- To adopt the principle of public safety and environmental friendly technologies.
- To develop the scientific researches and studies in the mining sector.
