

2023 (25th) China Mining Conference and Exhibition Invitation

2023 (25th) China Mining Conference and Exhibition (hereinafter “China Mining”) will take place from October 19 to 21, 2023 at Meijiang Convention and Exhibition Center, Tianjin. China Mining 2023 is hosted by China Mining Association (the CMA) and organized by Tianjin Minexpo Co., LTD., under the guidance of the Ministry of Natural Resources and Tianjin Municipal People's Government,

This year's event is themed *Innovation Promotes High Quality Development of Mining* and will feature the following: first, showcase safe, green, innovative, integrated development philosophies and practices in the global mining industry through forums, exhibitions and exchanges. The opening ceremony will include an initiative launch segment where UNESCO and the Ministry of Natural Resources jointly launches a global initiative on Digital “Chemical Earth” and Green Development. Secondly, this year's participation will boast superior and more international influence. Ministerial and even higher-ranking officials from across the world will be invited to the opening ceremony and the ministerial forum; UNDP representatives and the world's top mining giants will speak at the Keynote session; and a high-level dialog will be held for the top business leaders. Thirdly, the focus of the event will be placed on trending issues of

mining internationally and the event will continue to serve as a “barometer” and “weather vane” of the global mining sector. And thematic forums will focus on the supply and demand of mineral products and the capital market dynamics. Fourthly, the event will act as a platform to tell the Chinese story as well as a window into understanding China by the world. It will also use the Belt and Road Forum and the various displays of achievements to allow insights into China and its mining sector, towards the goal of furthering the Belt and Road Initiative. Fifth, strengthen the promotion of countries, projects, services and products, and provide a platform for countries and companies to promote international cooperation across all facets of mining. Sixth, an offline + online hybrid approach will be employed where face-to-face interactions and exhibitions will be shared online through the China Mining Cloud Platform, thus offering an event that will always be on.

The event consists of forums, exhibitions, country promotion and key events. The **Forum** consists of keynote session, summit forums and seminars to address the mining dynamics and key issues in the mining industry across the world, as well as the core issues in China's international mining capacity cooperation, with a focus on the supply and demand of strategic minerals. **Exhibition:** exhibitions will be housed in Tianjin Meijiang Convention and Exhibition Center, with exhibition spaces set up category and by region including: a comprehensive exhibition area, national

delegation area, financial services and trade area, technical services area, natural resources/survey/geological and mining systems area, mining equipment area, coal area, green mining area, intelligent mining area, and Beijing-Tianjin-Hebei collaborative development area. The exhibitions will be shown online in real-time. **Country promotion:** Mining Ministers, embassies and businesses are invited to attend the country promotion events; promotion, discussion, exchange and signing events will be organized to facilitate deals among Chinese and international mining businesses. China Mining 2023's **key events** include the opening ceremony, exhibition tour by VIPs, bilateral talks between Chinese and international mining ministers, and welcome receptions.

Beginning in 1999, China Mining has grown into one of the world's largest and most influential mining events, covering the entire mining industry chain, from exploration and exploitation, technology and equipment, to trade and investment and beyond. China Mining will provide quality services for mining businesses to engage in international capacity partnerships for mutual benefit, create platforms for dialog and exchange and win-win cooperation, and enhance the exchange and cooperation between Chinese and their international mining players in mineral exploration, development, processing, technology and equipment,

investment and financing, and trade services, and to jointly foster the prosperity, quality and sustainable development of the international mining industry.

China Mining Conference and Exhibition awaits your attendance!
